Geoengineeringwatch.org has made the decision to offer our color glossy 100lb paper informational flyers to the public. We have done this because we can print extremely large quantities and then pass the savings on to the public in order to get more critical informational materials into circulation. Flyers can be ordered here, or the flyer printing file (below) can be downloaded for FREE so that they can be printed locally.

100 Flyers, a 20 page [full color booklet](#) (that contains the most hard hitting and undeniable climate engineering facts and photos available) and our most recent DVD package is **\$29, TAX INCLUDED, with FREE SHIPPING AND HANDLING, continental USA ONLY (all international shipments have additional shipping fees)**. This informational package has been priced as close as possible to the cost of producing, handling, and shipping it. Every package also includes a complementary bumper sticker, our latest version is shown below.

There is only one goal, to help with the effort to sound the alarm on the critical climate engineering issue. Any remaining proceeds from the sales of this informational package will go 100% back into the ongoing effort to raise public awareness on the critical climate engineering issue. Due to our constant workload in the battle to expose and halt climate engineering, we will be mailing packages just twice a week. We apologize for the delay and thank you for your patience.

### THE FACTS:

- Over 100 active weather modification programs are in use across the world.
- High levels of aluminum, barium, and potassium are being found in rainwater around the world.
- These metals are not produced naturally in the atmosphere and are not found in rainwater.
- The US Military has a document called 'Order of the Weather' by 2025 and will use weather as a weapon.
- Most of the programs today are nearly invisible to the public.
- There are over 100 active weather modification programs in use in the United States.
- 20% of the programs are being used to create artificial clouds.
- In 1951 people die with Alzheimer's (documenting a correlation).

Have you noticed that sometimes the clouds are weird shapes?

### Artificial Clouds Photo Project

The Flaming Arrow project is seeking submissions of photos & video documenting the dates & locations where aerial spraying of unknown substances is taking place, ostensibly in order to create artificial clouds to reflect the sun's rays (SRM, or Solar Radiation Management). This is but one program of many that comprise what is called 'geo-engineering' otherwise known as weather-modification, atmospheric aerosol spraying, or simply climate control (creating storms or droughts, or rain & snow at temperatures well above freezing). This also includes the migration of moisture over thousands of miles to provide rainfall (and flooding) for selected areas, and severe drought for others. Some prefer to use the term 'weather warfare' to describe the use of climate control programs to create natural disasters over enemy territory (see YouTube video lectures by geoengineering expert Dane Wigington for more info).

**The Flaming Arrow Project (www.skyderALERT.com)** is seeking photos & videos of these artificial clouds & the jets and chemical plumes that they are releasing into our skies (once filmed, you can enter your evidence into our app that instantly sends to your representatives and others exactly where & when these assaults on public health & the environment are being executed world-wide.

Scientific analysis of the chemical composition of these artificial clouds has resulted in alarming findings of **extraordinary levels of toxic metals such as Barium, Strontium & Uranium**, and soil & water tests in areas impacted by this chemical fallout have shown **severe de-crofts of plant & aquatic life forms (mostly insects & small fish, which form the base of the food chain for larger animals that depend on them for food) & severe impacts on human health, such as early-onset Alzheimers in adults and alarming amounts of Autism in children**. However, due to the **severe climate of this military program, any harmful chemical can be used against us at any time (for any purpose).**

While this important scientific research continues, equally-important are the photos & video clips documenting the locations & frequency of these illegal flyovers of jets dumping unknown quantities of undeclared chemicals into our skies.

If you're a photographer or videographer or just someone who happens to be in the right place at the right time with your camera, please send your photos or video clips to The Flaming Arrow Project at [www.skyderALERT.com](http://www.skyderALERT.com)

There you can also download the interactive app allowing you to upload your photos & videos about these secretive climate-control programs. Photos are preferred over video. Only photos can be used by the mapping project. You can also visit the website above to order a copy of Look Up!, an award-winning doc film by film maker George Barnes.

If you're a soil or water-quality researcher or biologist who would like to participate in the program the best place to share your research with others in your field of expertise is [www.geoengineeringwatch.org](http://www.geoengineeringwatch.org). Your data and even your testimony could become invaluable in our fight to present the proper authorities with the hard data they need to make important decisions to demand cessation of these deadly aerosol spraying programs in our skies.

## ARE WE THE EXPERIMENT?

Are illegal weather modification programs (GEOENGINEERING) altering our climate, poisoning us and contaminating our land, water and air? **HERE ARE THE FACTS, YOU DECIDE.**

OVER THREE DOZEN SHASTA AND SISKIYOU COUNTY LAB TEST RESULTS TAKEN FROM SHASTA/PACK, RAINFALL, POND & DUST SAMPLES, SHOW "OFF-THE-CHART" LEVELS OF ALUMINUM, BARIUM AND STRONTIUM

18 STATES EXPOSED

These photographs were taken just hours before this unprecedented lightning and firestorm that raged across northern California, on June 22nd, 2008. Of the 4,000-plus lightning strikes and 1,200 fires, 100% were attributed to the weather modification program.

### Alarming Local Lab Tests Reveal Accumulated Contamination

In addition, these photos were taken from the Shasta County's "Weather Modification" System. This system is used to create artificial clouds over the Shasta County area.

### FAST TRACKING "WEATHER MODIFICATION" BILLS IN CONGRESS:

U.S. Senate Bill 1807 & U.S. House Bill 1445 & Climate Security Act of 2008:

These bills would allow the use of weather modification programs to create artificial clouds over the United States. These programs are being used to create artificial clouds over the United States. These programs are being used to create artificial clouds over the United States. These programs are being used to create artificial clouds over the United States.

I have been observing my trees looking worse and worse and now I realize what is causing it. I have moved up to the hills and am surrounded by beautiful trees that I've always dreamed of living under, but now this is very upsetting to me. My own husband calls me a "wingnut" and most friends and family also. They are blind to reality. I have been following the agenda for a decade or more so its no real surprise to me. I deeply appreciate your work to try to stop this, but it cannot be done with the continued success of the "divide and conquer" tactics.

I also appreciate the advice on how to share it was very helpful.

Peace All,

Been observing this since the beginning of Bush1's 'de-regulation' of the public oversight of public/private partnerships and the ascension of the "Monsanto marketing"\*\*\* principle Over central and north-central Missouri, late 1980's. The first experiences were rainbow clouds(oil slick?) and perfect, and I am talking geometrically PERFECT, circles in the resulting overcast from the aerosols dispersed earlier in the day. Last observed were three consequential circles in progression, across about 2/3s of the sky, Boonville, Mo, late 1990's. Everyone blew me and it off as just a normal pattern we never noticed before! WTF????

At that time, it was claimed the experiments were only fully active during daylight hours. I seen one researcher quoted as saying, "The fun starts at sunrise", like its an amusement park ride! Heaven only knows where we've progressed to since then in God's country. Most recent are square clouds and boxes(cells?) floating in the muck.....

This is an area needing serious investigation by informed, pissed-off Americans, willing to step into harm's way to dig out the truth and expose the criminals in all their splendor.

Thanks for the venue.

Peace, Johnny B from Missouri

I live down the coast from Sydney and driving home one afternoon i just so happened to look up at the sky and couldnt take my eyes off it , I just could'nt believe what i was seeing .Straight trail' s going for over 80 kilometers . Some were being made and some were older .Im in my mid 50's and never in my whole life have i ever seen a contrail that looks like these .Also this is not a comercial flight path . Half hr after i got home and went out the back yard to have another look and they had totally covered the sky . I thought wtf . I have since been looking up and now see them in Sydney and surrounding areas .. Ive tried to say to many people something strange is going on but not may respond with any sort of intertest at all .I dont know which is more devistating ,the fact that these are not normal contrails and are something more sinister or the fact that people are so bloody blind to see that the sky is constantly being bombarded by them more and more .. I will download these informative flyers and spread the word to the best of my ability , All i can say is god help us all if the powers that be keeps this ludicrously going ....

I have so much reading up to do- am so glad you have maintained this website and I will donate what I can to keep things moving. We need to grassroots organize. We need to see what legislators are open to conversation and exposure. Much cynicism and untruths are posted to confuse us and to obstruct the truth. I wonder if Bernie Sanders or Jill Stein would consider taking this issue out into the limelight? Certainly we aren't going to get anywhere with anyone in congress who's already served a term and hasn't looked into this. I am going to write a letter to my representatives at every layer of government, starting from the ones most accountable for their inaction bottom to top....with the Mayor of Norwich, CT to my state rep, (Emmett Riley) state senator,( Cathy Osten) , Governor (Malloy) and so on... God bless all of us and thank you again. I promise to stay involved to expose the truth.

I watch every day, and cant believe my eyes ? Ive posted lots of picture and videos on Instagram to no avail ? Nobody comments ? I have dozens of "views" but nothing else ? My question today is. Why here ? Why Florida ? What the heck is so important here that they are so concentrated on the Central to North FL areas ? I should mention also, that I was previously living in the FL Keys..and Yes, they are spraying there too...I'm furious about this Chemtrail stuff. I feel helpless dont you ? thanks again.

Just found this site and found it quite interesting. Had a friend tell me about the chemtrails and have noticed them for some time here in the Midwest (MO) They are definitely not the same jet streams we saw in years past. I was unaware that they are toxic, but that may be the reason we are having more sinus, colds and allergies the past few years. And, Yes, I have noticed that the sun seems hotter as well as mentioned by another writer. Thank you for this information and I have passed it along also. Thank you to Dane and all who are keeping us aware of what is happening in our world. It is sad that so many prefer to be blinded to the truth and continue on their "merry" way. I live in Australia, I was living near Brisbane, I now live in the country (because of MCS, I needed to get out of the city) where you can actually see the skies. I was not aware of the chem trails until about 6 months ago. It's very dry in the country & every time it looks like rain I notice the trails & we don't get any rain. Sometimes I see the trails & we get a quick heavy storm that passes quickly. I use an air purifier & no longer leave the windows open at night, as it effects my breathing + headaches + other symptoms. I recently traveled inter state, I have traveled this highway for years & admired the clear blue skies but not this time....lots of trails, even more on the Old Glen Innes road. The planes left trails all day until the blue skies were full of strange clouds, the planes dumped toxic waste all night as well. It's the driest in over 35yrs, the river barely a trickle. Thanks to everyone for sharing their knowledge & their experiences. So far no one believes me....you only have to look up! I will use your posters to spread the news.

There is enough for everyone, Mother Nature provides us with everything we need...it doesn't have to be this way....I truly despair.

I've been contemplating contact with someone that WILL GET TO THE BOTTOM OF THIS! I have watched Navy planes do their circles over my house past 5yrs! They are dropping these canisters that implode with chemicals that are making us sick!! You can see it because I live in vicinity of a closed AFB, and these Navy planes fly much ,much lower than the regular planes from the airport, you can almost SEE THE PILOT. It's a great way for elimination of the American population! Every time we hear them coming, we have to bar ourselves inside, and it still makes me very sick for 36 hours, I literally can't move without pain and nausea!

I'm SICK OF ORGANIZED CRIME THAT HIDES BEHIND FAKE PROBLEMS THAT DON'T EXIST. STOP MESSING UP OUR CRYSTAL BLUE SKIES WITH THE CHEMICAL WEAPONS BEING DUMPED IN THE AIR, YOU CAN WATCH THESE CHEMTRAILS EXPAND WITHIN A FEW HOURS AND THE CHEMICAL TURNS INTO COMPLETE CLOUD FORMATIONS. THE AMERICAN PEOPLE ARE NOT STUPID, BUT IF THE ONES THAT KEEP DOING THIS ARE NOT STOPPED, IT WILL TAKE ITS TOLL ON THE BRAIN, NEURO DISORDERS,AND OTHER OUTLANDISH HEALTH PROBLEMS DIRECTLY CAUSED BY THE POISONS BEING DUMPED ON US!

THE LAST PLANE PARADE DROPPED SO MUCH, IT LEFT BLACK SPOTS ON MY CAR, AND SOME WERE SO CONCENTRATED, IT ATE AWAY TO THE PAINT!

THIS IS BEYOND ANY HUMANE COMPREHENSION! KILL THE PEOPLE? SAVE THE PLANET? THIS NEEDS TO STOP! IF IT BENEFITS MAKING MONEY WITH THESE MASTERMINDS, THEN THEY'RE NO DIFFERENT THAN THE DRUG COMPANIES And the Regulated hogwash to squash the truth about cancer cures, and the doctor's that mysteriously end up dead when they try to provide the absolute cure, that doesn't involve DRUGS.

I'M SICK OF THIS!!!

Please forward this to anyone that can help!

Thank you,  
Sheila

I will keep putting them up on the board, but i found a better way, i just carry two in my hand and as i walk by the store shelves i quickly lay one on the shelf, or in a box. I do it so quick. It is a relief to know that there ARE a few people out there who are willing to be brave and tell the truth. I have lived in California since 1956 and have seen the total decline of the environment happen before my eyes. I have been noting changes in the weather since the early 1970s, and more recently the changes in the cloud patterns, and of course, the chemtrails. I have always been a very healthy person with no allergies, but in the past year issues have developed. I know it is from the chemicals and metals being sprayed in our skies on almost a daily basis. People need to get off their football couches and tailgates and start waking up to WHY so many distractions are being pushed on us; the false terrorist alerts, the conjured events, social media, football, the military, and so on.....and begin to fight back against the takeover of our food production, our environment, water, AND weather. The complacency is appalling, and it will come back to slap them all in the face. Coming from an era that changed the world view during the 60s, I am SO very disappointed in my generation and their lazy offspring.

I've taken rain samples in the appropriately prepared sample bottles given to me for free by the lab (Curtis & Tompkins in Berkeley CA) whose now working on the results. I am having them test for 5 metals....all I can afford now but hope to order more tests from the same sample before the sampling window closes for this sample....which was taken from our most recent rain here in the east bay of Nor Cal. I'm testing for aluminum, barium, strontium, titanium & manganese. Another sample taken by Stop Spraying Us – SF came up w/an aluminum reading that was "off the chart"....170 MG's. The results of this test was posted to the Facebook Group Bay Area Residents Against Geo-Engineering....it's a private group but if you wish to join simply send them a request to join as I did a few weeks back.

Should my sample come up w/similar results (I have no reason to believe otherwise) I plan to bring these results to my local Reps (Pleasanton & Livermore) along w/some hitting points via Dane's Flaming Arrow Package & of course a copy of the DVD. I plan to keep what I say very short while simply asking the question....why is there is metals in our rain h2O? I will also encourage as many local muni's to begin doing their own rain h2O tests just so they can see for themselves & not simply taking my word for it. This should provide them w/official confirmation that we have a problem for which needs immediate attention on all levels regardless of what my own backyard results will show.

Bottom line....as Dane & others have been saying for sometime now.....we all need to be consistently echoing the mantra of "we need to wake up the masses". I can't help but to think of the Zeitgiest trilogy when thinking about geo-engineering. If you've yet to see any of the 3 in this Doc trilogy I highly suggest everyone takes the time to look it up....all 3 may still be up on Youtube.....if so....of course try to view them in order.

Keep up the good fight people!!

Try for moment and understand what our young today are thinking about all of the crap that is going on. They

are basically being told that there not ever going to have a life like we and prior generation's. They have been handed a future with very little hope. So yes, they may seem lazy, but in reality there simply lost. So how about pointing the finger to show them the way, instead of pointing the finger of blame. Our children feel absolutely hopeless, let's help them find some.

If you want to know who runs the show in your town go to the Local Masonic Lodge and see what vehicles are there and the people that own them. That will give you a real good idea who is behind a lot of this Corruption. They have many secrets to hide because they have Dark Agendas. In my opinion they all should be kicked out of your towns. A good place to put them would be on a remote island where they could all live happily ever after. They are Corrupt and people should wake up to this fact. They are not do gooder's like they try to portray themselves.

Fellow readers,

I have been witnessing this phenomenon for the last year. I own property in Denver Colorado and Laramie Wyoming. The chem trails that are being sprayed would appear designed to fallout on the target area and just hang there; all along the front range. These planes do not spray on days that the winds are strong across the ground. It seems by design that the aerosols are intended to envelop the target area. If this is the case, there is much more going on that creating a radiation shield. These poisons are being sprayed to degrade to populace.

One evening right at twilight I could visually see geometric shapes in the fake clouds overhead. What happens when you introduce mettalic particles into the air? How about a type of plasma that is excitable to electromagnetic waves. These microwaves bounce all over. There are others substances that are being sprayed as well.

I have watched now hundreds of these chemflights. I am here to say that several different combination of chemicals are being used. It is visable to the naked eye. Binary chemicals as can be seem by fights flying in close formation in the same vector. You can see different colors.

I am beginning to beleive this is the final solution to the coming financial collapse. Just eliminate to useless eaters by speeding up the death rates of all of us. This reduces liabilities of the govt. The old and weak hurry up and die, and the world is a better place. The NWO wants a 95% reduction in the population and this is one of their methods. This is nothing less than genocide on a global scale. This spraying is going on all across America. Dont believe me? Take a look at the MLS of homes for sale anywhere across America. You will see chemtrails in photos of the homes listed!

I am fifty six yeays old. I have never before in my life seen seen such things as this. These are indeed dark times for America and the world as we know it. This treachery must be exposed and those responsible jailed for life.

Dane,

You are a courageous man. I'm an 80's child and always knew that there was something wrong with the clouds. I had an obsession with clouds and everything having to do with weather when I was young. I would name of types of clouds and there meanings while on car trips. There was always one cloud that my parents would get mad at me for talking about, and that was when I called the chemtrails sick clouds or fake clouds. No one knew what "chemtrails" were then and the were not as prevalent as they are today. My parents took me to the doctors thinking there was something wrong with me, due to the fact that I would obsess over certain things like the clouds, or a dead bee or butterfly. The doctors thought I had a form of autism, that was not the case.. I think I was just very awake. My parents over the years tried to numb these feelings I had about things. I would have outburst at the dinner table when I would watch my family drooling over the tv, I hated the tv, I called it the great soul sucker. I have gone through life thinking that there was something wrong with me, I was so different from others. That again wasn't true. I just didn't let things I felt were wrong or bad change me, and still don't. I have be lost feeling as if I have been floating around amongst a great many evils that have discredited me, and felt just plain hopeless, making me into what people perceive to be crazy. I know I'm not, and are so glad to see others awakening at a fast pace, I'm just not sure if it will be fast enough. However I do believe that good will concur evil, and love will concur all. I'm so glad to see the flyers, I will do my best to spread the information. There is a glimmer of hope. The love from each and everyone of you for humanity is what is going to win this war on humanity. However, sitting on the couch with our smart phones and tv's buying into media is what is going to stop progress for the greater of good. We have to be proactive! I'm so thankful for each and everyone of you that is awake and helping! may god bless all your souls!

Dane, I can completely relate to you on everyone thinking something is wrong with you, I have always looked at things inside the box and way outside the box, I want to know everything about that box and others accept it as a box and go back to their tv show or sporting event. I have told people that just because I do not think and act like them (so boring, unexcited and robotic) does not mean that "I" have the problem. All of the greatest thinkers have almost always come across as odd, weird, different, excitable or scattered. Expressing ideas and thoughts that go against the majorities brainwashed way of thinking but it is those very ideas that have evolved in to the greatest inventions this world has ever known. I am with you buddy and share your pain from always being on the outside looking in but, as I am learning more and more, they are really the ones with the problems they are just to brainwashed and programmed to realize it

I have a lot of trees and shrubs that have died. After doing a huge amount of investigating the SRM management program I found a list of ingredients that are used in the Aerosol Spray that is doused on us pretty much constantly. One of them is Ethylene Dibromide. If you look at the ingredients in Roundup you will see this is one of the Key Ingredients in this product. Monsanto makes it. It is used to spray weeds and it kills everything. So if you are wondering why your plants are dying and people are getting ill around you then Research this and find out for yourself. I have no doubt also that we could be being sprayed with Tritium. Tritium is radioactive and makes you ill especially when inhaled. It doesn't take a Brain Surgeon to figure out the Skies and how littered they are with Toxic Chemicals. It is so obvious that it cannot be mistaken. When you take a drive they are spread out everywhere. When I am sleeping I can hear the planes and Jets going overhead. I hardly think they are passenger jets. The sky is fairly clear real early in the morning before sunrise and then after the Passover from the Aerial Assault the sky becomes a Filthy Mess. I also came across WWF exposed on you tube. It is the video that shows an Antelope that has been Speared. I recommend that people look at this. You just might get someone's attention because it seems to be extremely difficult to try to explain the Chem Program to them. They think you are Whacky.

I heard about the Ethylene Dibromide a few yrs back. So they are spraying us like INSECTS? So this has to be done to slowly KILL us!!! Doing it fast would be too obvious, so they do it slowly, but they are killing the plants too. How evil is this? And WHY?

Hi Dane — Margaret from Jackson, Mississippi here. So happy for this site and the brochures that you have provided. I have noticed the chemtrails in the sky many times, but just thought they came from regular planes. It just so happened that I planted a small organic garden so I have been in my yard quite a lot lately and was out there on October 22 and 23 and noticed all of the white trails in the sky on both days. My initial impression was wondering why so many planes was criss-crossing up there. I also saw that one half of one of my shrub bushes had died (but half of it was still green and healthy) and made a mental note to trim that half off later. It was around this time the news was forecasting that Hurricane Patricia would hit Mexico, I think, and Jackson would get a lot of rain. We had been in a severe drought since early July. Well rain it did — for a couple of days. After the rain was over, I went out to check the garden and discovered that the shrub I mentioned earlier was BROWN!! That bush looks like it was either burned by fire or acid was sprayed on it. I could not imagine what did this but I was convinced it came from the sky. I started looking online for something to explain what I had seen. This is how I came across this site, and because of what I have learned already, I took samples of garden soil, vegetables, shrub leaves, bark from an oak tree where the bark came right off the tree—to a cooperative extension where soil is normally tested. Although the person I spoke with was very polite, I could tell he thought I was a fruitcake. He had never heard of chemtrails either, but I asked him to promise me that he would go online and look at the sites and videos I referenced in my letter. I have shared this info with family, friends, strangers and my children — and the looks I get — well, you know the drill. LOL LOL Since this happened, I have continued to educate myself on different aspects of this issue and have been watching the sky daily. Our sky is a beautiful blue today and it is suppose to rain tonight—so I am watching so I can take pictures. I also put clean jars in open spaces to catch rainfall. But I don't think that coop is going to be the place to test the samples. Anybody got ideas about where to go for testing? I will print out the flyers and start handing them out. That is much better than trying to explain and describe. I have no intentions of sitting around worrying — I believe in prayer and will definitely be praying and speaking forth the promises of God— but will also take any action I can. Thanks Dane for all you have done to enlighten the public. Don't stop please. Margaret

Hello Margaret,

I live in Massachusetts and I also garden organically, I have had the same problem with my shrubs, half die at first and then the rest of the shrub dies. I don't know what's going on with them. This has happened to several of them, especially the azaleas. My neighbor has many trees and in the last 5 years he has had at least 6 trees die and a few more on their way. It's very sad. As far as the rain, it's been pretty dry around here. It will be dry for about 2-3 weeks and then we get anywhere from 2-5 inches of rain at once. I don't remember when it was normal to get that much rain at one time.

I know how you feel when you bring up Geo Engineering, I get the same looks. 😊

Freemason's believe that they live in the darkness when they are here in everyday life. They believe that when they perish, then they will see the light then. They "do not" like the sun, so that is why we have skies that are littered with Toxic Sun Blocker. They also welcome big storms, most likely because they are involved in huge money making schemes. It makes me wonder what kind of thought process is going on in their Sickened Minds. These people are Mentally ill and certainly need help. When you look at the constant occurring floods and devastating storms, it is most obvious that something is Totally Wrong.

When the women that told her husband that this was abnormal she was right. He may wake up or may not. All my family members thought I was kooky mentioning this to them, without even taking the time to have a look at the facts right before their eyes. One cannot convince people that are close minded.

I feel like I'm going to be watching and talking to someone and they're (people are) just going to start melting all over the place. And brainzaps and .... well, you get the picture. I was in Virginia just prior to and during the period the flooding occurred in South Carolina. I was not watching the news so I was unaware of the pending storm. I am aware of GeoEngineering and a few days prior to commencement of the flooding event, I was looking through my nephew's window and observed a plane spraying stuff across the sky. I thought to myself that they must be engineering some weather phenomenon, especially since the pope was in the area and they couldn't have any bad weather interrupting his business. A few days later, I heard about the flooding in S. Carolina.

Rosalind Peterson from Redwood Valley (Mendocino County, CA; californiaskywatch.com) used to do this kind of thing. I got her go show up at a Fairfax, CA town council meeting and later they unanimously passed a "geoengineering-free zone" ordinance– not that this will get the monsters to stop their game immediately, but imagine what kind of message it would send to Messrs. Dr. Keith and Dr. Caldeira, if we had a list of cities that e-mailed those two idiots, plus a few Generals in the U.S. Army, Air Force and a few Admirals in the U.S. Navy, about how very UNPOPULAR their thinking, and THEY, suddenly ARE! It's too bad Admiral Chester Nimitz is gone– his daughter, Sr. Aquinas Nimitz, taught biology for many years at Dominican College in San Rafael. NO DOUBT my mind that Adm. Nimitz would be quite against the large-scale weather modification-as-warfare– such a psychopathic idea, along with EMP weapons, which now "takes the place," apparently, of nuclear weaponry. A Psychopath's Wonderland, what formerly was called "Earth."

Freemasons are set up in most towns they call Communities. And they are not for the good of people. I have found that out personally. This summer 2014 I noticed the jets were spraying continuously over my house in Southwest lower Michigan. The skies were sprayed worse than I have ever seen 24/7. We only had around 7 days of blue skies the whole summer. Before they would spray 5 days then 2 days not. I was concerned because the spray was so heavy that I looked up on the internet if Michigan was in a pilot program, I couldn't find anything on it. It was so bad, I posted pictures and lots of articles on facebook. I distributed lots of brochures. In August I had some weird stuff happening to me like hearing a high pitched frequency, I thought was tinitus, but it would come and go. Then other things were happening at my home, someone had been breaking in my home. All day and night there were jets and planes flying over my home besides the chemtrail jets and they still are to this day 24/7. After more incidents happening I realized I am being targeted and gangstalked (social engineering) and electronically harassed. There have been men going around my neighborhood and town discrediting me. I'm not sure what they are saying but they are claiming to be Government Agents to make the people believe what they are saying. I have read alot about this and the Freemasons are working with a covert end of the government to try to silence people that are awake. Their goal is to discredit you by making you lose your job, that you will lose everything, try to make you do something bad to put you in prison or commit suicide. I believe the Freemasons are part of the spray campaign and other bad things such as the mind control, if you read about the Freemasons they are heavily into mind control and there is a huge mind control program going on right now in Southwest lower Michigan including towns in Michigan such as Niles, Dowagiac, Cassopolis and Decatur. There have been alot of new people moving into this area buying and renting all the homes that have been on the market for a long time, and all these people are from other States. There have been black Yukons and Suburbans with license plates from Indiana, Illionois, Ohio, Colorado, Utah, California, Maryland and many more. Something is going on. There have been cell towers put up every 10-20 miles, there is one in every town and I still don't get any better phone service so I know they are not for phones. They will be used as mind control, dumbing down of the people so they don't care whats going on. The Schools are pushing for wifi (wireless internet) in the whole School building so they can mind control the children. ALOT of children and adults are sensitive to the electromagnetic waves, they can make you sick that comes from wifi and smart-meters and they don't have a choice. It is very sad. We need to wake more people up. Hopefully it's not too late. In the end God will take care of the bad people. God Bless us all!!!

Darn right the Free Mason's are tied to the Illuminati. Just look at the Sick Kid's sign they post in various area's. Spray them down and make them sick with all kinds of things that give them Cancer, Autism and the list goes on. They pretend they are really doing things for their community. Their Secret Society has many secrets that are not known to most. One must look up Masonic beliefs and find out the real pictures. There is a Temple in almost every bigger town. Who do you think runs slot if the show. Most people might as well be blind folded because they are unable to see what is going on. Me out shovelling the Nucleated Snow and listening to the Spray Jets overhead. And your local airport has a Geo. Contractor there also. Your air ambulance too. All have spraying capabilities. How do you think they make their money. Voyager Patient Transfer. Just have to do some research and find out who is making people go to the Hospital through them revolving doors. Big Business and Big Money. Very easy to figure out. Unfortunately most don't have a Clue or Deny it and many don't care that they are being poisoned daily.

Yes Wolfman, I believe the Georgia Guidestones say 500 million. We are under attack from so many directions, chemtrails are one of their bio-weapons among others such as fluoride, Monsanto genetically modified crops, pesticides and organisms. If they can't kill us, they dehumanize us, incarcerate or re-educate us. They appear to be in control, with plenty of agents doing their bidding.

Pray for Dane and all the good God-fearing people that inhabit this planet. We are against pure evil!

Thank you so much for this valuable information in wonderful flyers so we can share it with others who may not have Internet access. I agree with those who commented about the need to unite in order to make our representatives pay attention. I'll be on the lookout for rallies and marches to join. The earth provided for and sustained us for millions of years before power hungry, greedy humans took control. We (the masses) aren't dumb sheep to follow their lead, no questions asked. We must make our voices heard!

It's cuz the ozone is thinning just like Dane said. We get more hot radiation from the sun. In the morning it is SO BRIGHT that I can't even look near it. I believe it's the ozone going, and i believe it is SO bad that they won't tell the public.

I am wondering if the fact that the ozone is going is why "they" have been building underground cities for the last 40 years plus? They know that soon the top of the earth will become unlivable and so the Elite are going underground?

I ask guys at work or the neighbors like if weather conversations come up, I ask don't you think that sun has changed? I say don't you think the sun is intense and its rays a lot more penetrating? I get sun burn even with 30spf on my face, at my sons football games the sun is like beaming like it is being zapped or given an extra charge to it. I don't care what anyone says that sun is hotter then ever before its more hot like on your face just sitting in your car or standing you can really feel the burn on your pant leg or arm. If things continue and no one interveins we are in for it I think. Anyone live in Maryland?, a lot of cloud cover overcast. Also a lot of spraying going too. Scary stuff.

Hey George....The sun is definitaely more intense. You can see along the free ways the pines are drying up. The leaves curl up to die while turning colors in the fall. I use to sunbathe and had to turn and turn all day to get my tan, back in the 70's..ha ha. But I tried that in 1990, and I noticed that I was burning after 20 minutes out under the sun.I do not sunbathe now.....My leg was burning the other morning from the sun coming through the passenger window on a 20 degree day. I was only in the car for 5 minutes. So your right, not imagining it.

There are many of us deeply disturbed  
by the aerosols being sprayed without our consent.  
We must come up with solutions that HARM NONE.  
We have too many people working and being funded  
by those with a vested interest that go unregulated.  
I applaud everyone who takes the time to take action.

Amen! I live in Las Vegas , Nv. Although the temperatures were not in the teens this summer the sun felt extremely hot. My dermatologist cuts or freeze's these little ugly growths off of my skin at least 3 or 4 times a year. Including skin cancer on my nose. People had better start calling Washington D.C. and start bitching to their representatives about this specific evil. I recently watched a video with David Rockefeller the (antichrist) declare the global population needs to be reduced from 7 billion to , I think he said 500 million. All of this evil is coming from the "NEW WORLD ORDER PEOPLE"!!!!!!

I have been thinking about how I could create a flyer this past week...as I think it's an EXCELLENT way to disseminate this critical information. And YOU have ALREADY done it FOR us! This is GREAT! THANKS! I'm going to print a LOAD of them and start getting them out everywhere...FAST. This will greatly accelerate (and duplicate) my efforts. I've literally been going around neighborhoods..on foot, on bike, stopping folks and pointing to the sky..where there's almost ALWAYS a fresh chemtrail happening...it's horrific. Thankfully, the 'free sky demo' makes it easy for me to get my point across. People are shocked & can understand that these things cannot be contrails. ALL of us need to get busy on sharing these flyers..far & wide. Setting up meeting sites each week helps as well, for those who want to come for more information.

I was inspired to see 13,457,353 Visitors to Dane Wigington website at [geoengineeringwatch.org](#). This is more than I thought were interested as NO advertising popped up on this page!! Info can go a long way if we intelligently inform others and to not sound like a nutjob or leftwing as people do not comprehend passionate as otherwise, but present facts and let honesty present itself! THE TRUTH WILL OUT! Yes Susan,united we stand!!!

I agree with all of you. Printing these flyers (above) out and leafleting all over the place is good and holding screenings at your local library is also good. Anything that you can do to help create awareness helps in my opinion. Yes the dark forces are at work but WE, the humans of this planet, have the numbers! Lets get mobilized. Oh and we have assistance from above as well, if you know what I mean. We are not alone in this.

We are all being Duped and poisoned at the same time. A real shame that most people don't look up and see something Very Odd happening above their heads. Most likely because of the Dumbing Down effect from the poisoning from the Solar Management Scheme that is ongoing. I try to warn people but it seems clearly that most are just in a Daze. Dane is so right about everything here on his site. We are all in very serious trouble here.

I urge people that visit this site. Look at all the information that is being presented and study it. It could very well save you and your loved ones. In any event we are all doomed anyway if all this doesn't stop.

Sounds Scary Eh!

Well it is.

This is not a Nightmare.

This is all happening right now and is escalating more and more each and every day.

Stumbled upon your site. Yes, we are being eliminated by our government. Just read up on the ILLUMINATI which is behind all this and the NEW WORLD ORDER. They want to lessen the population so only those with inherited or otherwise power will control, rule the masses and rule the world. Masons are tied into the Illuminati. These webpages like yours are great HOWEVER the websites like yours should combine with others like Edward Griffin, INFO Wars and more for people are only getting bits and pieces of what is really happening. WE NEED TO UNITE as one big force. Just my thoughts..
