

Q Drop: 'The Russian Narrative'

ONE OF TWENTY TWO:

[DNC BREACH / DOSSIER] '17 US Intel Agencies concluded, 'based on info given by CrowdStrike {CS} (A a private a crisis/ intel forensics team funded, in part, by Google to the tune of 100mil— discussed later), 'that Guccifer 2.0 was responsible for Democratic National Committee (DNC) hack,' and subsequent Wikileaks (WL) drop, which would be known as the Podesta Emails. They also concluded, based on CS intel, that Guccifer 2.0 was a Russian agent/entity. When breech was discovered, DNC declined F_I outreach for help; and, instead, brought in private firm CS, which wiped all intel from servers/ hardware so no evidence of malfeasance would remain utilizing, among other things, software known as 'BleachBit.'

The HRC controlled DNC Hired Fusion GPS, a 'strategic intelligence firm based in Washington, D.C,' to create 'opposition research' on DJT which eventually led to the phony 'Russian Dossier' in an attempt to deflect attention from DNC breech/WL drops and her use of a private server in which classified emails were sent/received.

[SR]> Seth R_c_, a B Sanders supporter who worked for the DNC in DC, learned of DNC donor funds being shifted from BSanders' account to HRC's. He copied what would become know of the Podesta Emails onto thumb drive and arranged for them, through an unknown channel/person(s), to make their way to WL. Days later, Rich was found near his home shot in what DC Police described as a 'Botched Robbery,' though nothing was removed from his person (he died soon later at hospital). Surveillance footage was confiscated from nearby convenience store and other businesses and have yet to be commented on or released to public. Family hired a private detective, R. Wheeler, to investigate for themselves the suspicious death; however, when ex-DC police officer, Wheeler, concluded that Rich had been in contact with WL, the family fired the detective he was placed under nondisclosure order to keep from revealing specifics of case. Since, J. Assange has all but said that SR was his source for Podesta Emails, going as far as offering a reward for info into his death.

[WL]> Wiki L received S.Rich's thumb drive with metadata from DNC— which was controlled and funded by HRC (Hillary later admitted on her book tour, that the DNC was left broke by Hussein Obam_, and The Clinton Foundation {CF} funded it)— which showed they had arranged for donors' contributions to be shifted to HRC's account from B. Sanders'; as well as other damning revelations which can be read about on WL website: See 'Podesta Emails.'

HUSSEIN> BHO had knowledge of possible Russia hacking into the DNC at least as early fall 2016 but denied/downplayed Russia Interference because HRC was ringer to win the general election and BO wanted DJT to have no excuses for his impending defeat. However, once DJT pulled off the unexpected miracle, the same hacking that BO deigned occurring back in the Fall of 2016, he used as fuel to propel the Russian Collusion Narrative, closing both Russian diplomatic compounds, in NY and MD, expelling 35 Russian diplomats back to Russia in retaliation for, 'a series of 'cyberattacks' which targeted U.S. political institutions during the election.' Mockingbird media runs with it's new Russian Narrative. >>See Gannett<<.

DNI DIR> Hussain's Director of National Intel, J.Clapper, allowed for wiretapping and illegal unmasking of DJT's campaign team and transition team and subsequent leaking of identities and intel gained illegally to the MSM in attempt to discredit candidate and also President-Elect Trump.

CLOWN DIR> Wahhabist muslim, J.Brennan, organizes, along with Clapper, the obtaining of FISA Warrants through nefarious practices which led to the unmaking and leaking of information regarding General Flynn, DJT's National Security Adviser. This leads to Flynn's dismissal for not disclosing his involvement with a foreign entity concerning his lobbying efforts in Turkey prior to joining DJT's campaign team.

CLAS: 1-12>

GOOG> Eric Schmidt— Chairman of Alphabet Inc.(Google's parent company) and BHO's leading corporate adviser, meeting with then President 18 times at WH — in 2017 funded CrowdStrike with 100 million in venture capital. Google also manipulated the algorithms of internet searches during election cycle to ensure negative stories on HRC stories were buried while positive articles were promoted.

CROWDSTRIKE> CS, a private company, which was called in to clean up the DNC server hack, ala Wolf from Pulp Fiction, instead of F_I, has been providing investigators with what former Director JC described in June as the "relevant forensic information... needed to understand the intrusion." >Servers wiped clean of info such as DNC funneling B Sanders' funds to HRC, which Seth uncovered and ultimately gave to WLeaks.

DWS_DIR> Head of DNC,DebbieWS, provides HRC with questions to Democratic party debates against Burnie, despite policy against such action, giving HRC a clear advantage. Debbie was also the leading player in the scheme to embezzle Sander's funds and place them in HRC's account. Debbie was revealed by WL's just prior to Democratic National Committee and is forced to step down as chair. DonnaB is elevated to chair and discovers the further corruption of how the 'books were cooked' against BS, which she Details in her book, 'Hacks' — released AFTER election. In her books she also states that she was afraid for her life after Rich's death.

(SR 187)(MS13 (2) 187)>

-I/D-J ASSIST> B.Ohr held the rank of Associate Deputy Attorney General, a post which gave him an office four doors down from Deputy Attorney General R.Rosenstein where Ohr held his secret meetings last year with the founder of Fusion GPS, GlennS, and with Ch.Steele, the former British spy who compiled the infamous Russian pee dossier. Ohr's wife also worked for Fusion GPS (small co ~16 employees) at the time the Dossier was compiled on DJT. Since, the Justice Department stripped Ohr of his deputy title, though he still works for the FBI.

“INSURANCE”: Deputy Director of F_I, AndyMC (Wife, Jill, given ~700k for failed Democratic senate run by CF while A.McCabe was one of the lead ‘impartial’ investigators in the the HRC email scandal) concocts, in his office, along with F_I’s PeterS. (who would later be tapped to be part of Special Council RobertM ‘impartial’ team to investigate Trump/Russia collusion) and his paramour, FB_ lawyer L.Page, what is referred to as an ‘insurance plan’ to ensure DJT cannot win election. Though the plan is not specifically delineated in personal messages obtained between Strzok and Paige— the animus against the soon to be POTUS is, referring to him as an ‘idiot,’ for example.

Insurance Part II: A.Weiner’s laptop was confiscated by NYPD as part of sexual misconduct with minor investigation they were conducting. Evidentially, HumaA, member of Musli_Brother_ood, used AW’s private laptop to conduct StateD business. Allegedly, Weiner had a file marked ‘insurance policy,’ on laptop (allegedly containing damning info on HRC that Weiner could possibly use as a bargain chip to obtain a lesser sentence in his pedophilia case). It has been alleged that during sweep of AW’s laptop, NYPD finds potentially classified files from HRC and read some of the info contained within. They then contact, the F_I, concluding it was a Federal matter. The NYPD’s knowledge of potentially damning contents of laptops forces JComey to get ahead of NYPD’s potential revelations and he reopens HRC investigation. Important note: This is something Comes did NOT want to do because he was a good ‘fixer’ and had already exonerated HRC despite her guilt, guaranteeing him a job with her future regime. Of course, Comey had to become the fall guy after he reopened investing into email scandal because it cast further shade onto HRC.

HRC> Blames Russia interference for race being close; ‘Bots’ for not being ahead ‘at least 50 pts.’

LL> Attorney General, L.Lynch, head of the lead prosecuting body of the Clinton Email Scandal, meets with husband of Candidate HRC and former POTUS, BC on a plane, privately, for ~30minutes; resulting in probable assurances being made that HRC would not face criminal charges. It also gave the opportunity for the State Department to synch 'stories' with candidate HRC.

JC> LL synch's with AndyM, PeterS and JComey. JC reads PeterS Changed wording from 'Grossly Negligent" (criminally culpable) to 'Extremely Careless,' exonerating HRC from email/server scandal wrongdoing, thus, assuring her election(Even though Comes has no authority to adjudicate such a matter— only investigate — under his prevue as Director of FB_).

AM> Andy was Deputy Director of F_I under BO and Director, after 'philosopher patriot,' James C. was canned. Director Wray was tapped by DJT as JC's replacement; however, AM stunningly remains as DD of F_I while trying to run out the clock until March 2018, in an attempt to have the citizens' of The Republic to subsidize, for life, in the form of a pension, a literal traitor who attempted to change the lawful outcome of a US election, depriving the citizenry its right to a candidate of their choosing. Andy played an extremely pivotal role in facilitating the Dossier's transfer from DNC to FB_; which included extensive coordination with Obama Admin, JComey, JPo, Brennan, and PeterS to secure FISA warrants, wire-tapping, unmasking/leaking of information on DJT's team as candidate, and even President elect in an attempt to sabotage an election.

PS> P.Strzok, F_I, member of RobertM's investigation team, was sharing anti-Trump text messages with FBI lawyer and 'paramour' Lisa Page. Which showed extreme bias against DJT and revealed plot that took place in A.McCabe's office to insure DJT would never take office: see 'The Insurance Policy,' covered earlier.

SUPPORT: CS, NP, AS, CLAS-1, CLAS-2, CLAS-3, CLAS-4, CLAS-5, CLAS-6)>

BRIT INTEL> C. Steele, former MI6 and liaison to Russia, created fake Trump/Russian Dossier along with Fusion GPS with money from HRC (T.Mcauliffe), CF and DNC which created the Russian collusion narrative that resulted in SpecialC RobertM being appointed, utilizing millions of taxpayers dollars, investigating POTUS —the the person the citizenry just elected into office—having already rejecting the Russian Narrative prior to election.

PODESTA> Did HRC dirty work as campaign manager and handler. He was main liaison btw Clinton Team and Obama Admin (Andy M.) to facilitate the Russian Collusion Narrative. General all-caps SCUZ. See WL's 'Podesta Emails.'

CLAS: 1-9>

US SEN NO NAME> Maverick, JSM, given fake Russian Dossier. McCain turns it over to JC thinking he is putting the nail into DJT campaign. Did not know JC already had the document and that the F_I may have been contributing in 'continued' funding of Fusion GPS on DJT.

US SEN CLAS-1>

US SEN CLAS-2>

JC> James bypasses LLynch (with her permission) and adjudicates HRC's server scandal himself instead of investigating only, which was beyond his prevue as Director of F_I. JC changes the wording of 'Grossly Negligent" (criminal) to 'Extremely Careless,' with guidance of PS and AM— exonerating HRC, keeping her in the race.

LL> AG Lynch basically recuses herself from HRC email case, announcing she will accept whatever ruling JC decides on HRC email scandal.

HUSSEIN> Campaigns for HRC knowing fully/ and is complaisant in the HRC email scandal coverup and the proliferation of fake Russia Dossier, and its use to facilitate FISA warranty to surveil DJT and his team— even through his transition period once he had been elected POTUS.

[FISA 2] Clapper and Brennan facilitate the further issuance of FISA warrants, with BHO's knowledge, using fake Dossier as probable cause.

PRES DAILY B> POTUS Briefings were 'wire tapped.'
Massive leaks made to media with no sources named.

US SEN NO NAME> No name, McCain, arranges leaks of dossier to media outlets such as BuzzFeed. He is also presumably responsible for many other anonymous leaks to MSM.

NEWS SHOP> WaPO, NYT, CNN, and other muckrakers in MSM continue to use leaked, unnamed sources to fuel daily Russian Narrative and delegitimize POTUS, 45, election.

BUZZF> BuzzFeed published leaked fake Russian/Trump Dossier on its website. Backfired: It did not come off as credible to public. However, is later revived in campaign once Billy Bush Access Hollywood tapes did not eliminate DJT as calculated. Note: though the Fusion GPS Dossier was discredited, it was the genesis of the Trump/Russian Collusion Narrative (TRCN). So, even though the foundation of the narrative was found to be erroneous, it was still used to promulgate further fake Russian stories involving POTUS and his staff. It became so pervasive, and time consuming, that POTUS went to JamesC. asking if he, POTUS, is being investigated. JC insures POTUS 3X that POTUS is NOT under investigation. POTUS asked Comey to go public with knowledge to quiet the TRCN. JC refuses. President fires JC for gross lack of loyalty to the Executive Branch in which JC operates under. The firing leads to Special Council RM brought in to investigate Russia interference in US election.

PUBLIC/NARRATIVE: TRCN Born: Fake dossier funded by HRC, CF, DNC (and possibly, at some pt by F_I) created by Fusion GPS: hiring C. Steele (was MI6 liaison to Russia when active) to go to Russia and collect/create intel on DJT which included hookers, urination, etc, which was later leaked to Buzzfeed by McCain and ultimately discredited; but was still used as basis for investigating DJT's team for fake Russia collusion and served as fuel for MSM's daily attacks on POTUS.

Flynn was part of a FISA warrant/subsequent unmaking that stemmed from TRCN. He was low-hanging fruit because of his dealings with Turkey in which he failed to disclose prior to being appointed to POTUS's staff; and his conversations with Russian Ambassador Kislyak during transition (which was legal— what was not legal was Flynn's name being unmasked and name leaked by BHO Admin). Flynn was/is a good man, also key in further red-pilling DJT on 'sick people,' and connecting him with key figures such as A. Rogers who could guide POTUS through initial hostile waters. Flynn was fired by Obama and knew of most of Hussein's dirty dealings—Hussein had to discredit Flynn/compromise him so Hussein's actions, which Flynn was privy to, could not be revealed. Hussein could also use Flynn's non-disclosure to further TCRN— 2 birds one stone. Flynn's son tweeted about PG, as well, and was, thusly, caught up in indictments.

Manafort was also low-hanging fruit due to his lobbying ties with Ukrainian oligarchs; though his connect to them were prior to working on Trump Campaign. DJT cut him loose early in campaign, after only a few months, upon learning about overseas deals— not because it was illegal, but it provided the campaign with bad optics. But Manafort was later used to further fuel phony Russian narrative even though his business/lobbying dealings with Russia/Ukraine had been many yrs earlier before his involvement with Trump campaign.

STAGE SET FUTURE PREVENT/REMOVAL OP: TRCN

RAMIF: US INTEL LEGAL SPY ON PRES CANDIDATE / PRES ELECT / R CONGRESS / R SEN / NEWS FRIENDLY / ETC> TRCN, though discredited and phony, is used by Deep State to 'Wire tap' WH even after POTUS, 45, takes office. POTUS leaves WH on August, 5th 2017 for a 17-day "working vacation" at his golf club in Bedminster, New Jersey, while White House is 'Swept.' Mockingbird media 'cleans up' story of the 'wiretapping' of DJT Team by citing TRCN as justification for Obama Admin's holdovers continued spying on POTUS. A justification whose genesis was sourced from a fake, discredited dossier which the BO Admin were complicit in making. These people are sick!
